Research Papers

Comparison of various flood frequency distributions using annual flood peaks data of rivers in Anatolia
T. Haktanir (Adana, Turkey) 1
Beryllium concentrations in rainfall, stemflow, throughfall, mist and stream waters for an upland acidified area of mid-Wales
C. Neal, H.A. Jeffery, T. Conway, G.P. Ryland, C.J. Smith, M. Neal (Wallingford, UK) and S.A. Norton (Orono, ME, USA) 33
Gravel-bed deposition and erosion by bedform migration observed ultrasonically during storm flow, North Fork Toutle River, Washington
R.L. Dinehart (Vancouver, WA, USA) 51
A multi-layered radial flow model interpretation of drill stem test data
Y.H. Yu and J.W. Lloyd (Birmingham, UK) 73
A mini slug test method for determination of a local hydraulic conductivity of an unconfined sandy acquifer
K. Hinsby, L.J. Andersen, V. Clausen (Copenhagen, Denmark), P.L. Bjerg and B. Skov (Lyngby, Denmark) 87
Spatial variability of hydraulic conductivity of an confined sandy aquifer determined by a mini slug test
P.L. Bjerg, T.H. Christensen (Lyngby, Denmark), K. Hinsby and P. Gravesen (Copenhagen, Denmark). 107
Seasonal dynamics of groundwater–lake interactions at Doñana National Park, Spain
L.A. Sacks, J.S. Herman (Charlottesville, VA, USA), L.F. Konikow (Reston, VA, USA) and A.L. Vela (Madrid, Spain) 123
Variations in streamwater nitrate concentrations and nitrogen budgets over 10 years in a headwater catchment in mid-Wales
B. Reynolds, B.A. Emmett (Bangor, UK) and C. Woods (Grange-over-Sands, UK). 155
Parameter estimation in an aquifer–water table aquitard system
M. Sekhar, M.S. Mohan Kumar and K. Sridharan (Bangalore, India) 177
The impact of the Suwannee River Sill on the surface hydrology of Okefenokee Swamp, USA
Z.-Y. Yin (Atlanta, GA, USA) and G.A. Brook (Athens, GA, USA) 193
Evaporation at high elevations in Hawaii
T.W. Giambelluca and D. Nullet (Honolulu, HI, USA) 219
Simulation of stream-water chemistry with soil solution and groundwater flow contributions
W.H. Hendershot (Ste-Anne-de-Bellevue, Que., Canada), S. Savoie and F. Courchesne (Montreal, Que., Canada) 237
Comparison of diffuse discharge from shallow water tables in soils and salt flats
P.J. Thorburn, G.R. Walker and P.H. Woods (Glen Osmond, S.A., Australia) 253
Steady-state suspension of snow
J.W. Pomeroy and D.H. Male (Saskatoon, Sask., Canada) 275
The effects of irrigation waste-water disposal in a former discharge zone of the Murray Basin, Australia
L.A. Chambers, B.G. Williams, C.J. Barnes and R.J. Wasson (Canberra, A.C.T., Australia) 303
Quantitative assessment of the flow pattern in the southern Arava Valley (Israel) by environmental tracers and mixing cell model
E.M. Adar, A.S. Issar (Sede-Boqer, Israel), E. Rosenthal (Jerusalem, Israel) and O. Batelaan (Amsterdam, Netherlands) 333

Influence of elevation on regional evapotranspiration using multivariate geostatistics for various climatic regimes in Oregon
A. Martínez-Cob (Zaragoza, Spain) and R.H. Cuenca (Corvallis, OR, USA). 353
Water table fluctuations in an aquifer system owing to time-varying surface infiltration and canal recharge
S.N. Rai and R.N. Singh (Hyderabad, India) 381

Discussions

The matched diffusivity technique applied to kinematic cascades. I. Model description and validation — comment
M. Perumal (Roorkee, India) 389
The matched diffusivity technique applied to kinematic cascades. I. Model description and validation — reply
B.H. Schmid (Vienna, Austria). 393
The application of probability weighted moments in estimating the parameters of a Pearson type three distribution — comment
W. Jakubowski (Wroclaw, Poland) 395
